

SPECTRA TRANSFORMATIONS

A JOURNAL DETAILING THE STEPS TO IMPROVED HORSE HEALTH AND PERFORMANCE

Volume 1

*"We did this in 60 days, with the help of **EPICOAT** and **MEGA-X**!
There are no other products that could have done this!" – Chelsea Holt*

Gallery's Ricochets Red Rose 60 Day Transformation (2/13/21 - 4/15/21)

Owner: Chelsea Holt – JWR Training Center & C-Star Performance Horses, Ocala, Florida
Trainer of Shetland & Miniature Horses with over 20 National or World Champions

Steps to Success

1. 15 minute workout on a freestyle walker every day
2. Feed 6 ml **EPICOAT** top-dressed on feed every day
3. Feed 1 oz. (30ml) **MEGA-X** top-dressed on feed every day, then 2 oz. (60ml) when on the road
4. As horse show time approaches, body clip with a 10 blade, leaving hair to then be clipped all the way to a 30 blade, which is surgical.

Owner's Comments

*"When she was clipped, she was clipped in a 30 blade, so if her coat was not good and shiny she would look horrible! That is where **EPICOAT** came into play and led to huge results. In just 60 days, the **EPICOAT** GLO-MEGA coat nutrition system was able to transform her hair, which allowed us to clip her that short! Then the **MEGA-X** helped us develop her body in a very short amount of time! It was a 12 hour trailer ride two days before the win picture, so her body did not have much time to bounce back. That shows how amazing **MEGA-X** helps fight stress and keep her systems where they need to be. She's already Multiple Supreme Champion this year."*

SPECTRA
Expect Results.

MEGA-X contains X-Factor, a Lysine-rich proprietary blend of key performance nutrients, including a full range of B-vitamins and a balanced ratio of chelated organic Iron, Zinc and Copper used by trainers to improve blood counts. It also contains SapoPlex, a source of Yucca Saponins to support healthy inflammatory response. Higher blood counts increase the amount of oxygen carried to muscles and organs, which increases stamina and performance.

32oz. = 16 to 32 day supply
1 gal. = 64 to 128 day supply

EPICOAT is a concentrated, plant-based source of Omega 3 fatty acids for horses. It contains GLO-MEGA®, a proprietary combination of vitamin E and chia seed oil, with peroxidation blockers to protect the product against rapid oxidation and rancidity.

6.5oz. = 32 day supply
16oz. = 80 day supply
*16oz. size comes with a pump

MEGA-X®

PERFORMANCE SUPPORT

With

X-FACTOR
Nutrient Blend

- Proprietary X-Factor brand proteinated minerals
- High in lysine plus B-complex vitamins
- Chelated organic minerals with greater bonding strength for better absorption
- Specially manufactured to stay chelated even in low pH conditions
- Intuitive Technology adjusts absorption to the needs of the horse
- Proprietary SapoPlex Yucca Saponins

BIOBOOST™
bioavailability enhancer

SAPOPLEX™
Yucca Saponins

EPICOAT®

COAT NUTRITIONAL SUPPORT

With
GLO-MEGA™
coat nutrition

- Natural plant-based source of Omega 3 fatty acids
- Contains GLO-MEGA® coat nutrition
- Longer shelf life, resists oxidation
- Higher concentration of Omega 3's than other sources
- More Omega 3's per the amount of Omega 6's (anti-inflammatory)

Omega 3 / Omega 6 Balance

Omega 3 fatty acids are anti-inflammatory while Omega 6 fatty acids are pro-inflammatory. Horses on fortified grain without access to grass may be getting more Omega 6 fatty acids than they need. As a result, most horses need additional Omega 3 fatty acids to balance the ratio. **EPICOAT** has the highest concentration of Omega 3 fatty acids to Omega 6 fatty acids, thus making it easier to correct the imbalance.

Omega 3 Content of Natural Sources

Source	Omega 3 Content
EPICOAT®	600 mg/g
Flaxseed/Linseed Oil	500 mg/g
Fish Oil (unrefined)	300 mg/g
