

SPECTRA TRANSFORMATIONS

A JOURNAL DETAILING THE STEPS TO IMPROVED HORSE HEALTH AND PERFORMANCE

Volume 3

*“After trying just about every combination of supplements, creams, and shampoos on the market, nothing seemed to work for him until trying **EPICOAT!!**”*

– Paige Smith

3/7/23
First day on EPICOAT – super itchy with scabs and open sores

3/15/23
8 days on EPICOAT – noticeable difference and less irritated

3/17/23
10 days on EPICOAT – only 2 days later and still improving

5/2/23
Almost 2 months on EPICOAT – no itching or irritation, coat is soft and shiny!

Zimo

60 Day Transformation (3/7/23 - 5/2/23)

Owner: Paige Smith - Tampa, FL
USF Equestrian Team Rider and Team President

Steps to Success

1. Feed 6 ml EPICOAT top-dressed on feed every day

Owner's Comments

*“My name is Paige Smith and this is my horse Zimo! I’ve owned him for over 3 years and I’ve always struggled to keep his skin and coat healthy, especially in Florida summer. We competed in the hunters, jumpers, and equitation, even earning a regional title as Senior High Point Hunter out of over 150 competitors in Perry, GA and Florida Senior High Point. While our competing days are now over and Zimo is enjoying (semi)retirement, his happiness and health are still my top priority. After trying just about every combination of supplements, creams, and shampoos on the market, nothing seemed to work for him until trying **EPICOAT!** Although I don’t get to show Zimo anymore, I now compete on the USF Equestrian Team and serve as the team’s President, where I have the opportunity to ride and show many different horses. I take every chance I can to tell my trainers, other boarders, and barn friends about Spectra and your amazing products because I have seen firsthand that these products really do work!”*

EPICOAT®
COAT NUTRITIONAL SUPPORT

With **GLO MEGA**
coat nutrition

SPECTRA

EPICOAT is a concentrated, plant-based source of Omega 3 fatty acids for horses. It contains GLO-MEGA®, a proprietary combination of vitamin E and chia seed oil, with peroxidation blockers to protect the product against rapid oxidation and rancidity.

6.5oz. = 32 day supply

16oz. = 80 day supply

*16oz. size comes with a pump

EPICOAT® COAT NUTRITIONAL SUPPORT

With
GLO-MEGA™
coat nutrition

- Natural plant-based source of Omega 3 fatty acids
- Contains GLO-MEGA® coat nutrition
- Longer shelf life, resists oxidation
- Higher concentration of Omega 3's than other sources
- More Omega 3's per the amount of Omega 6's (anti-inflammatory)

Omega 3 / Omega 6 Balance

Omega 3 fatty acids are anti-inflammatory while Omega 6 fatty acids are pro-inflammatory. Horses on fortified grain without access to grass may be getting more Omega 6 fatty acids than they need. As a result, most horses need additional Omega 3 fatty acids to balance the ratio. **EPICOAT** has the highest concentration of Omega 3 fatty acids to Omega 6 fatty acids, thus making it easier to correct the imbalance.

Omega 3 Content of Natural Sources

Source	Omega 3 Content
EPICOAT®	600 mg/g
Flaxseed/Linseed Oil	500 mg/g
Fish Oil (unrefined)	300 mg/g
Canola Oil	74.5 mg/g
Soybean Oil	66.2 mg/g
Grapeseed Oil	1 mg/g
Coconut Oil	0.2 mg/g
